

2022 Website Program Description

Energy Medicine Practicum

Revisit energy healing techniques introduced in Energy Medicine and take a deeper dive into energy work for personal-development and healing

Residential Program

\$895

3 Days + 4 Nights

Prerequisite Required

Energy Medicine

or a Reiki Master Certificate

Join Brian Dailey and Allyn Evans for Energy Medicine Practicum. This 3-day residential retreat offers a deeper dive into working with energy for self-improvement and healing for yourself and others.

See how readily you can access guidance from higher sources and amplify/expand your energy fields. Energy Medicine Practicum uses a combination of subtle energy trainings along with advanced sound and imaging technologies to improve your ability to sense energy fields.

Remind yourself, just how powerful you are and see firsthand the result of your intentions. Biofield imaging will provide you with a better understanding of how *instantly you can expand your energy field exponentially, at will*. The Biofield Viewer allows you to physically see healthy and unhealthy energy patterns and the

direct effects of different healing therapies and modalities, demonstrated during the program.

You'll experience 4 to 5 Monroe Sound Science exercises daily and enjoy more hands-on time working with energy.

Everyone has an innate ability to heal themselves and others, but for most people, it remains limited and unrealized. This course is specifically designed to introduce you to:

- A combination of subtle energy techniques
- Advanced sound and imaging technologies
- The “science behind it”
- Activities to demonstrate just how powerful you are

As an Energy Medicine Graduate, you'll have the opportunity to:

1. Revisit energy healing techniques as introduced in Energy Medicine.
2. Experience more hands-on energy practices with self and others.
3. Join like-minded individuals in energy healing to rejuvenate your body and mind.

What You Get

In addition to the program materials and audio exercises, you will receive the following benefits.

Semi-Private Rooms

Standard accommodations are double-occupancy rooms.

Free Wi-Fi
